Education

VIT BHOPAL UNIVERSITY, Sehore, India

2022–2026

B.Tech in Computer Science (Cloud Computing and Automation)

CGPA: 8.63

HUDDARD HIGH SCHOOL (ISC)

2020–2021

Class XII – PCM with Computers

Percentage: 87%

HUDDARD HIGH SCHOOL (ICSE)

2018–2019

Class X

Percentage: 88%

Technical Skills

Java, Python, MATLAB, SQL, HTML, CSS, C++, LaTeX, Tailwind, Git, VSCode, IntelliJ IDEA, Eclipse, Spring Boot, Spring, Docker, JavaScript

Projects

WeatherApp (weatherapp-ag.vercel.app)

Aug 2025

Developed a real-time weather application using OpenWeatherMap API. Designed a clean, responsive interface with advanced CSS techniques for seamless viewing on desktop and mobile devices. Implemented dynamic location-based updates, integrated user-friendly error handling for network issues, and ensured accurate, up-to-date weather data rendering. Enhanced usability through interactive JavaScript features, including city search and quick refresh options for frequent users.

Carpooling Website

May 2024

Built a robust web platform enabling users to organize and join carpool rides. Created a modern, responsive front-end leveraging HTML, CSS, JavaScript, and styled it with Tailwind CSS. Architected backend logic using Python and managed users and bookings with SQL database integration. Containerized the application with Docker for easier deployment and scale. Added real-time notifications and authentication to boost safety and convenience for participants across devices.

Digital KYC Solution for Bharat

ongoing

Led the end-to-end design and development of a mobile KYC solution tailored for rural and semi-urban India, focusing on low-end devices and limited bandwidth. Developed user-centric workflows with intuitive guidance, fail-safes, and offline capabilities to accommodate users with low digital literacy. Integrated Digilocker-based and document-based KYC processes, along with face authentication incorporating liveness and face-matching checks, balancing on-device and server-side processing to optimize performance and security. Introduced innovative features leveraging LLMs, such as real-time language assistance and trust-enhancing chatbots, to improve user experience and confidence.

Certifications And Achievements

- DevOps Fundamentals ([IBM, 2025](#))
- Blockchain Fundamentals ([IBM, 2025](#))
- Introduction to Object-Oriented Programming (OOP) [Udemy \(2024\)](#)

Extra-Curricular

- Winner, Tale'Drop Literary Video Competition – VIT Bhopal
- First Place, Dance Competition – VIT Dance Club
- Member of Microsoft Club, CloudZone Club – VIT Bhopal (2022–2023)
